

NEW HAMPSHIRE NOTICE FORM
Notice of Psychologists' Policies and Practices to Protect the Privacy of
Your Health Information

THIS NOTICE DESCRIBES HOW PSYCHOLOGICAL AND MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

I. Uses and Disclosures for Treatment, Payment, and Health Care Operations

I may use or disclose your protected health information (PHI), for treatment, payment, and health care operations purposes with your consent. To help clarify these terms, here are some definitions:

- “PHI” refers to information in your health record that could identify you.
- “Treatment, Payment and Health Care Operations”
 - *Treatment* is when I provide, coordinate or manage your health care and other services related to your health care. An example of treatment would be when I consult with another health care provider, such as your family physician or another psychologist.
 - *Payment* is when I obtain reimbursement for your healthcare. Examples of payment are when I disclose your PHI to your health insurer to obtain reimbursement for your health care or to determine eligibility or coverage.
 - *Health Care Operations* are activities that relate to the performance and operation of my practice. Examples of health care operations are quality assessment and improvement activities, business-related matters such as audits and administrative services, and case management and care coordination.
- “Use” applies only to activities within my practice group such as sharing, employing, applying, utilizing, examining, and analyzing information that identifies you.
- “Disclosure” applies to activities outside of my practice group such as releasing, transferring, or providing access to information about you to other parties.

II. Uses and Disclosures Requiring Authorization

I may use or disclose PHI for purposes outside of treatment, payment, and health care operations when your appropriate authorization is obtained. An “authorization” is written permission above and beyond the general consent that permits only specific disclosures. In those instances when I am asked for information for purposes outside of treatment, payment and health care operations, I will obtain an authorization from you before releasing this information. If psychotherapy notes have been written, I will also need to obtain a separate authorization before releasing your psychotherapy notes. “Psychotherapy notes” are notes I have made about our conversation during a private, group, joint, or family counseling session, which I have kept separate from the rest of your medical record. These notes are given a greater degree of protection than PHI.

You may revoke all such authorizations (of PHI or psychotherapy notes) at any time, provided each revocation is in writing. You may not revoke an authorization to the extent that (1) I have relied on that authorization; or (2) if the authorization was obtained as a condition of obtaining insurance coverage, and the law provides the insurer the right to contest the claim under the policy.

III. Uses and Disclosures with Neither Consent nor Authorization

I may use or disclose PHI without your consent or authorization in the following circumstances:

- **Child Abuse:** If I suspect or have a good faith reason to believe that a child has been abused or neglected, I am required by law to report this to the Bureau of Child and Family Services.
- **Adult and Domestic Abuse:** If I suspect or have a good faith reason to believe that any incapacitated adult has been subject to abuse, neglect, self neglect or exploitation, or is living in hazardous conditions, I am required by law to report that information to the Commissioner of the Department of Health and Human Services.
- **Health Oversight:** If the New Hampshire Board of Mental Health Practice is conducting an investigation, then I am required to disclose your mental health records upon receipt of a subpoena from the Board.
